Sample Safety Summary Report

This PDF is a sample document for testing the AI ingestion and parsing pipeline.

Section 1: Overview
The purpose of this document is to provide a simple multi-page PDF containing
text that the parsing logic can extract and summarize.

Section 2: Key Points
- The plant performed 12 internal audits in the last quarter.
- 3 high-severity findings were observed.
- Most issues were related to housekeeping and missing PPE.

Section 3: Notes
Future improvements may include better automation of incident reporting,
closer monitoring of leading indicators, and periodic training refreshers.
